**DETAILED ACTION**

***Election/Restrictions***

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 17-21, drawn to a process for making an HAV vaccine.

Group II, claim(s) 22-39, drawn to an inactivated vaccine.

Group III, claim(s) 40, drawn to a method of making an HAV vaccine.

The inventions listed as Groups I-III do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: The special technical feature of group I is a method of making an HAV vaccine. Any subsequent method that does not share the special technical feature lacks unity of invention.

Group II does not share the special technical feature of group I because the group is drawn to a first product, which can be made by the method of group I or III.

Group III does not share the special technical feature of group I because it is drawn to a second method of making a product.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Laurie Scheiner whose telephone number is (703) 308-1122.

The examiner can normally be reached on M-F 9:00-5:30.
